

Regional Information Sharing Systems® (RISS) Officer Safety Website

About RISS

RISS is a proven, trusted, and evidence-based program that supports the needs of thousands of local, state, federal, and tribal criminal justice and public safety professionals while helping advance the nation's criminal justice strategy. RISS is composed of six regional centers and the RISS Technology Support Center (RTSC). RISS focuses on three priorities: investigative case support, secure information and intelligence sharing, and officer safety and deconfliction. RISS services and resources impact investigative efforts and operations daily. This is evident in the hundreds of shared success stories agencies and officers submit to RISS each year. To read these, as well as access information regarding statistics and quotes from each state, visit www.riss.net/Impact.

RISS offers full-service delivery, from the beginning of an investigation to the ultimate prosecution and conviction of criminals. An officer can simultaneously query multiple intelligence databases, retrieve information from investigative systems, obtain assistance from intelligence research staff, borrow equipment, receive training, and use analytical resources to help prosecute criminals. RISS is congressionally funded and administered by the U.S. Department of Justice, Office of Justice Programs, Bureau of Justice Assistance (BJA), through grant awards. BJA provides funding oversight and program management for the RISS Program.
